Backend (Learning):
Node.js, Express.js, MongoDB, SQL (basic)

Tools & Platforms: Git, Vercel

Other: GenAI exploration, IBM Watsonx,Communication, Anchoring, Team Collaboration,Event Management

PROFESSIONAL SUMMARY

Motivated and enthusiastic tech student with a strong foundation in full-stack web development and a growing interest in Generative AI. Skilled in building responsive, user-centric applications using technologies like JavaScript, React, Node.js, and MongoDB. Comfortable working across the development lifecycle — from frontend design to backend APIs and database management. Currently pursuing a B.Tech at Vellore Institute of Technology with a strong academic record. Eager to contribute to impactful tech teams while continuously exploring new tools, frameworks, and real-world applications.

WORK EXPERIENCE

Vice Chairperson – The WhiteHats Club, VIT
May 2025 – Present
- Coordinated club operations, technical sessions, and hackathon planning.
- Mentored junior members in tech stacks like MERN and AI tools.
